

# Suicide Bereavement Clinician Training Program (SBCTP) With Dr. Jack Jordan

**Attend this workshop for mental health professionals and the community on suicide and helping survivors cope with loss.**

This training is open to the community; including clinicians, educators, medical personnel and anyone interested in attending. It will provide a focused overview of the impact of suicide on survivors, and the clinical and support responses that are needed after a suicide occurs. The workshop will include didactic presentation, group discussion, case examples from the presenter's practice, and video clips from grief therapy sessions. Topics to be covered will include:

- Research about who is a survivor and the risks to their own mental health and well-being that survivors may face
- The psychological impact of suicide on survivors and common themes in the bereavement of survivors
- What research with survivors tells us is needed to help with healing
- The tasks of loss integration and recovery for survivors
- Postvention options for survivors
- Principles of postvention after client suicide
- Principles of longer term clinical work with survivors
- Examples of specific clinical techniques that can be of use in grief therapy with survivors.

**Dr. John R. Jordan, Ph.D.**

Dr. John (Jack) Jordan is a licensed psychologist in private practice in Pawtucket, Rhode Island, where he has specialized in work with survivors of suicide and other traumatic losses for more than 45 years. He is the Clinical Consultant for the Grief Support Services of the Samaritans in Boston, Massachusetts, and the Professional Advisor to the Loss and Healing Council of the American Foundation for Suicide Prevention (AFSP). He is Co-Chair of the Survivors of Suicide Loss Task Force of the National Action Alliance for Suicide Prevention.

For over 45 years, Jack has also provided training nationally and internationally for professional caregivers, and has helped to lead many healing workshops for suicide loss survivors. Jack has published over 50 clinical and research articles, chapters, and full books in the areas of the practice of grief therapy, bereavement after suicide, support group models, the integration of research and practice in thanatology, and loss in family and larger social systems.
